

# Parking Instructions

---

**Stop at the kiosk** right as you pull in and the security guard will tell you to either park in the garage underground or stay in the above ground parking area.

- If you go to the underground parking garage: Will need to take elevator to first floor (lobby), exit elevator and walk to the right and they will see the elevator that takes you to our suite. When you arrive at our suite, there are instructions on the door phone to call us (**suite 415**).
- If you park above ground: you will enter through one of two doors to the lobby, the elevators are right in a central location, which you will see. Follow same instructions as above to get to our suite.
- **Reminder to bring in your tickets for parking** and we will have stickers to validate you.
